

WESTFIELD STATE UNIVERSITY - SOCIAL WORK DEPARTMENT EMPLOYMENT-BASED PRACTICUM PROPOSAL

An **employment-based practicum placement** typically involves the employer granting release time for the student to use regular work hours for practicum activities that meet the program's requirements. This type of placement is preferable to an "add-on" placement, which requires additional unpaid hours. Students should carefully consider the feasibility of balancing full-time employment and graduate coursework alongside a 16-20 hour/week practicum, especially in the full-time MSW program.

Regardless of whether the practicum is part of regular employment hours or additional unpaid hours, a separate set of responsibilities and supervision is required within the organization.

Employment-based Placement Proposal Procedures

Students requesting an employment-based practicum must collaborate with the Practicum Education Program and their employer to develop an Employment-Based Practicum Placement Contract. Students are responsible for completing the proposal, obtaining necessary approvals, and securing the required wet signatures from their employer. The Practicum Education Program will then assess the placement by interviewing the student and potentially conducting a site visit if the agency is not an existing WSU practicum partner.

Employment-Based Proposals: Outline the proposed placement based off conversations with the student's employer. Signatures are not required for the first submission of the proposal as it should be presented for feedback from the practicum department prior to finalizing an employment-based contract.

DRAFT DUE: JUNE 1 | REVISIONS DUE: JULY 1

Employment-Based Contracts: Confirmed proposed placement between the student and their employer, after obtaining feedback from student's assigned practicum advisor. Wet signatures are required for this contract. This contract will be reviewed and approved by the practicum department and is only finalized when the student and practicum supervisor receive an approval email from the student's practicum advisor.

SIGNED EMPLOYMENT-BASED CONTRACT DUE: JULY 15

Employment-Based Placement Requirements

For an employment-based practicum to be approved, the following criteria must be met:

1. **Employment Status:** The student must ideally have been employed at the organization for at least 3 months before applying for a practicum.
 - Should a student seek employment for a start date that aligns with their practicum start date, their new role & duties may be considered to apply as their practicum duties so long as they are offered 1 supervision hour specific to their practicum experience.
 - All students considering this option, do so with the understanding that should there be a probationary period or issue that results in the student leaving that job the practicum department does not guarantee an alternative option and their practicum could be delayed as a result.
2. **Class Attendance:** The employer must allow the student to attend required classes.
3. **New Learning Opportunities:** The practicum must offer experiences different from the student's current role, with opportunities to work with new client populations, intervention methods, policies, staff, or other aspects of the agency's work.
4. **Practicum Supervisor Qualifications:**

- The Practicum Supervisor must have an MSW from a CSWE-accredited program and at least 2 years of post-MSW experience. Resumes are required to be submitted to the practicum department.
 - BSW Supervisors are required to have their BSW or MSW
 - Foundation Year Supervisors require only their MSW
 - Advanced Year Supervisors are required to be licensed, LICSW preferred, LCSW at minimum
 - The supervisor must have worked at the agency for at least one year and preferably not be the student's current employment supervisor.
5. **Supervision Requirements:**
- The supervisor must provide **one hour of individual supervision per week and one additional hour of group or task-oriented supervision per week.**
 - If the supervisor has not supervised social work students before, the agency must allow them to participate in a practicum orientation and Supervision in Practicum Instruction (SIPI) training. Prior SIPI training from another accredited MSW program may be accepted if it meets WSU's requirements.
6. **Agency Affiliation:** The practicum agency must establish a formal affiliation agreement with the WSU Department of Social Work.
